Product Overview: Easy to install level access shower tray.

- Features:**
- Suitable for all floor types
 - Only 40mm high
 - A central waste position
 - There's no need for under tray foaming
 - Pipe duct kits are available to help with installation
 - 'trim to length kit' supplied with 1800mm trays
 - 1800mm trays can be cut to 1500mm, allowing flexibility of fitting
 - 5 waste options are available (see accessories)
 - All trays are supplied with a separate tiling upstand
 - Ramp kits available

- Benefits:**
- The Braddan's unique design can create a full level access, surface mounted or step in shower enclosure
 - Suitable for all floor types
 - Quick draining, thanks to a 35mm fall to the waste
 - Integral added strength for extra peace of mind
 - Slip resistant surface
 - Extensive range of sites to fit most installations
 - A full selection of screens, curtains, rails and ramps means you can create the perfect bathroom for your requirements

Guarantee:

Specifier's Guide:

Height of Tray	Wood Floor	Concrete Floor	Screeded Floor	Corner Fitting	Alcove Fitting	Tray Handling	Gravity Waste	Pumped Waste
40 mm	Level Access or Surface Mounted	Surface Mounted	Level Access or Surface Mounted	✓	✓	Non Handed	✓	✓

* The lifetime warranty excludes normal wear and tear in general applications in accordance with AKW installation instructions. It applies only to products being installed for the first time and according to relevant local and national regulations.

Product Specification:

- Only 40mm high
- 35mm fall to the waste
- 18 stock sizes available
- Made from GRP with slip resistant surface finish

Trim-to-length installations

Braddan – 1800 x 700

1800 x 700 trim-to-length Braddan trays are manufactured from SMC and are supplied with a separate end cap. If the trays need to be reduced in size to fit into an alcove the end cap then needs to be sealed to the cut end prior to the tiling flange being fitted.

Braddan – 1800 x 820

1800 x 820 trim-to-length Braddan trays are manufactured from GRP. The trim-to-length kit comprises of two lengths of aluminium extrusion. The first piece is secured to the underside of the cut end of the tray. This is then secured into the wall. The second section is then secured over the first and sealed on top of the tray prior to tiling to provide a water tight seal.
