

CUBICLES

Self contained, freestanding shower areas, easily installed into almost any room.

- Quick and easy to install and remove without the need for expensive property alterations, (Installation usually within 2 hours).
- A cost effective, short term or semi permanent alternative to a traditional adaptation.
- Provides an ensuite facility practically anywhere in the home suitable for use by all the family.
- No additional tiling required.
- Unique shower tray system assists with cubicle assembly and helps to prevent the likelihood of leaks.
- Easy to get in to, choose from **level access**, 40mm high or up to **110mm** high to suit unbreachable floors.
- Optional ramps or step makes access even easier for wheelchair or ambulant users.
- Anti-slip surface for assured underfoot grip.
- Roof available, to which an optional light and fan can be installed.
- Half height doors for when assisted bathing is required.
- Glazed in durable, smooth Polypropylene and PET which are safe and easy to clean.
- Shower tray incorporates **Biomaster** antibacterial product protection which actively inhibits the growth of harmful and odour causing bacteria, see *inside cover*.
- The addition of grabrails, shower seat, WC or a wash hand basin will provide a functional solution for individual requirements.

NOW AVAILABLE FOR USE WITH:

- Tern rotating, level access shower trays, see page 10 for more details.
- Falcon 1200x700mm low level shower tray, see page 26 for more details.
- Gannet 1200x700mm top access shower tray, see page 32 for more details.

Scan to view cubicle details on your phone or tablet.

An optional roof helps to retain steam. Also provides a fixing point for a light or fan.

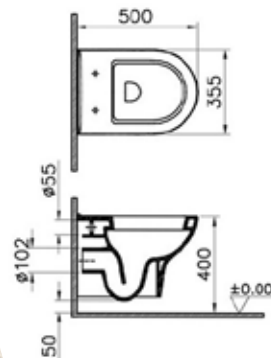

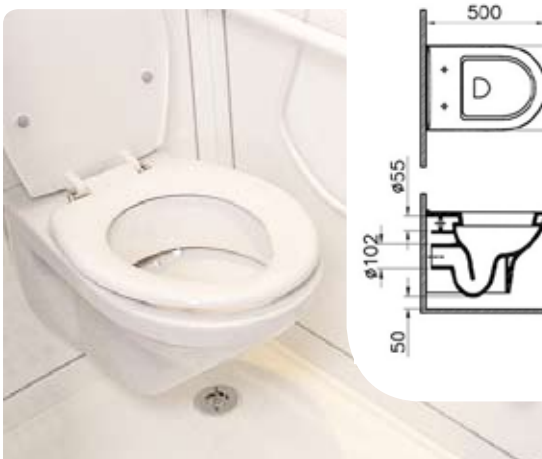

Adding a shower seat will provide the user with additional comfort.

A cubicle is a cost effective, short term or semi permanent alternative to a traditional adaptation. *Tern shower tray illustrated above.*

	Suits wooden floors		Suits above ground trays
	Suits screeded floors		Suitable for gravity or pumped wastes
	Suits unbreachable floors		

WC cubicles use a wall hung pan which allows cleaning underneath and around the WC.

WC Details

- Adjustable low WC frame allows the WC pan to be hung at a specific height to suit the user, from 350mm to 510mm.
- Robust, takes 400kg
- Cistern also incorporates a chrome dual flush button.
- WC Cupboard width: 350mm
- Adjustable low WC frame: 450H x 345W x 160D-325D
- Toilet seat supplied separately.

- An optional macerator can be supplied which allows you to fit a WC almost anywhere.
- Horizontal discharge: 100m.
- Vertical discharge: 4m.
- Dimensions: 330H x 163W x 263D.

To view freestanding cubicle options see pages 52 - 53.
